INDEX TO VOLUME III

Abdominal, muscles, Physiology and pathology of the, 689; operations, Normal saline solution in, 154; operations, Pulmonary complications following, 51; operations, Thrombosis and embolism following, 110; 163; section, for trauma of the uterus, discussion, 705; section, Forty-eight cases of delivery by, 593; section, Technique of delivery by, 679.

Abortion in a myomatous uterus, 494.

Accouchement forcé, premature labor and, The induction of, in the first five thousand labors in the obstetrical department of the Johns Hopkins Hospital, 402.

Adhesions, Peritoneal, 711.

Adrenal preparations and gelatine as a means of preventing hemorrhage, abs., 715.

ALLEN, DUDLEY P., A study of infections of the knee-joint and their treatment, 1.

Anæsthesia in the first stage of labor, 126.

Anæsthesias, surgical, Review of over four thousand, 795.

Aneurysmal varix, 566.

Anomphalosis, 163.

Appendages, uterine, Facts and figures of the end-results in one hundred cases of conservative operations on, 144.

Appendicectomy, The trend of the times in, 706.

Appendicitis, larvata, 495; suppurative, The healing of, with calcification, 503; Points commonly contested in the diagnosis and treatment of, 706.

Appendix, vermiform, Primary malignant diseases of the, abs., 183; Primary carcinoma of, ed., 555.

Atresia vaginæ, Some observations and experiences respecting the symptoms and treatment of, 709.

ARMSTRONG, GEORGE E., Surgery of the large intestine, 278.

Aspiration drainage in empyema and other surgical conditions, History of our knowledge of, 296.

Association, American Surgical, 332; Western Surgical and Gynecological, 558; of Obstetricians and Gynecologists, American, 703.

Atmokausis und Zestokausis: die Behandlung mit Hochgespanntem Wasserdampf in der Gynäkologie, rev., 463.

Atrophy, Acute yellow, in the puerperium, discussion, 571.

Bacteriological studies, Practical, in the surgical clinic, 216.

BALDY, J. M., Conservative operations on the ovaries, 102.

BALLANCE, HAMILTON A., A case of traumatic hemorrhage into the left lateral lobe of the cerebellum, treated by operation, recovery, 223.

Basedow's disease, Therapy of, abs., 454.

BECK, CARL, Further observations on extensive separation of the periosteum in displaced bone fragments, 686.

BECKER, HENRY A., Fracture of the carpal scaphoid, 21.

BEEDE, S. C., Report of a case of a lithopædion, 374.

BELFIELD, WILLIAM T., Irrigation and drainage of the seminal duct and vesicle through the vas deferens, 656.

BEVAN, ARTHUR DEAN, Unnecessary operations on women, correspondence, 591.

Bibliographies, ed., 817.

Bier's hyperæmia, The treatment of acute infections by, abs., 581.

BILL, ARTHUR H., Hebotomy (pubiotomy), an operation for the enlargement of contracted pelves, 42.

BIRGE, RUSSELL H., Subcutaneous injuries of nerves, 13.

BLAND, P. B., A statistical study of deaths from cancer in the city of Philadelphia, with especial reference to cancer of the uterus, 638; Report of a case of mummified fœtus of thirteen years' standing, 672.

Blood, The use of thyroid extract to shorten coagulation-time of the, 219.

BLOODGOOD, JOSEPH C., The surgery of carcinoma of the upper portion of the rectum and the sigmoid colon, with special reference to the combined sacral and abdominal operation for the resection of these tumors, 284; Senile parenchymatous hypertrophy of the female breast — its relation to cyst formation and carcinoma, 721.

BOISE, EUGENE, Post-operative embolism, 146.

Bottini operation in prostatic hypertrophy, The, abs., 457.

BOVÉE, J. WESLEY, A report of two cases of hypernephroma renis, 96.

BRADFORD, E. H., The treatment of congenital dislocation of the hip by incision, 247.

Breast, the female, Senile parenchymatous hypertrophy of; its relation to cyst formation and carcinoma, 721.

Breech-presentations, Management of, 534.

BRICK, J. COLES, The operative treatment of carcinoma of the rectum, 683.

BROWN, GEORGE S., Cæsarean section necessitated by obstruction of pelvis by non-pregnant half of bicornute uterus, 359.

BRYANT, JOSEPH D., History of our knowledge of aspiration drainage in empyema and other surgical conditions, 296.

BUNTS, F. E., Treatment of traumatic œsophageal stricture by dilatation, 151.

BURNS, T. MITCHELL, Technique in caring for the umbilical cord and navel, 331.

Burnside Lying-in Hospital, Toronto, Directions for nurse and home physician, 445.

BUTTERFIELD, E. E., Hyperplastic tuberculosis of the intestines, 302.

Cæsarean section, Conservative, 569; Vaginal, 74; necessitated by obstruction of pelvis by non-pregnant half of bicornute uterus, 359; The treatment of placenta prævia by, 398.

Calcification, The healing of suppurative appendicitis with, 503.

CAMMIDGE, P. J., The technique of the examination of the urine and fæces in suspected cases of disease of the pancreas, 440.

Cancer, of the sigmoid and rectum, 236; of the colon, with special reference to its diagnosis, types of operation and method of avoiding fæcal drowning, 309; of the uterus, The contest with, 376; of the rectum in a girl of sixteen, Case of, 579; of the uterus, A statistical study of deaths from cancer in the city of Philadelphia, with especial reference to, 638.

Carcinoma, and sarcoma appearing in same patient, Introductory remarks, and report of a series of cases of malignant growths, with a clinical study of the possibilities of, 242; of the upper portion of the rectum and the sigmoid colon, with special reference to the combined sacral and abdominal operation for the resection of these tumors, The surgery of, 284; Discussion, 334; of the cervix uteri, The results of operations for, discussion, 452; Primary, of the appendix, ed., 555; developing in the inguinal glands nine years after removal of the primary growth, 575; of the rectum, The operative treatment of, 683; Extensive, of the face, 818; of the rectum, abs., 833; Results of vaginal hysterectomy in, abs., 843.

Cardiac stimulation for suspended animation by direct digital manipulation, abs., 182.

162384

Cardiospasm, 556.
Catheters, drainage, The retention of, 436.
Catgut versus tendon tissue ligatures, 734.
Cavities in operative wounds, The elimination of, 547.
Cerebellum, Case of traumatic hemorrhage into the left lateral lobe of the, treated by operation, recovery, 223.
Cervical, dilator, A new hydrodynamic bag, 542; ribs, The clinical significance of, 514.
Cervix, of the gravid uterus, Manual dilatation of, 79; Tuberculosis of the, abs., 346; A further contribution concerning artificial dilatation of the, 356; Ovoidal tumor of the, 570; Amputation of the, with the aid of an intrauterine tenaculum, 804.
Cervix uteri, Artificial dilatation of, indications and methods, 167; The results of operations for carcinoma of the, discussion, 452; Laceration of the, 614; The bloodless method of dilatation of the, at full term, 755; 827.
Chicago Lying-in Hospital, The technique of the, 805.
Chloroform, Late death by, abs., 585.
Chololithiasis, Atonia gastrica in relation to, 353.
CLARK, F. S., The prophylactic treatment of puerperal eclampsia, 24.
Coagulation-time of the blood, The use of thyroid extract to shorten the, 219.
COE, HENRY C., Infection of ovarian cystomata, 410.
COFFEY, R. C., Amputation of the cervix with the aid of an intrauterine tenaculum, 804.
COLES, STRICKER, Lacerations of the cervix uteri, 614.
Colon, Cancer of the, with special reference to its diagnosis, types of operation, and method of avoiding fæcal drowning, 309; The surgery of tuberculosis of the, 322.
Compend of operative gynecology, A, rev., 464.
CONDON, A. P., The treatment of placenta prævia by Cæsarean section, 398.
Conservative, measures, Immediate results of, 174; operations, dis., 174.
Contusions, Abdominal, 567.
COPLIN, W. M., Sacrococcygeal tumor (teratoma), 661.
Corpus lutean cysts of the ovary, abs., 588.
Cranium, Fractures of the, abs., 453.
CRILE, GEORGE, Clinical and experimental observations on surgical hemorrhage, 62; Report of a case of multiple giant-celled sarcoma, 57; Surgical physiology, ed., 158.
CULBERTSON, CAREY, Atmokausis und Zestokausis: die Behandlung mit Hochgespanntem Wasserdampf in der Gynäkologie, rev., 463.
CUMSTON, CHARLES GREENE, Considerations on some mooted questions pertaining to prostatectomy, 361.
Cystitis, Urethral bacteria as a factor in, abs., 841.
Cystic kidney of the fœtus, congenital, Dystocia from, with report of a case, 628; Discussion, 699.
Cystomata, ovarian, Infection of, 410.
Cysts, Ovarian, situated above the superior pelvic strait, complicated by pregnancy, 413.
DA COSTA, J. CHALMERS, Report of a case of traumatic asemia, 642.
DAVIS, EDWARD P., The choice of methods for dilating the gravid uterus, 421; Forty-eight cases of delivery by abdominal section, 593; Technique of delivery by abdominal section, 679.
Decidua, extrauterine, A study of the development of, 388.
DE LEE, JOSEPH B., The technique of the Chicago Lying-in Hospital, 805.
Delivery during artificial semi-sleep, abs., 717.
Dermoid cyst, 450.
Diaphragm, The diagnosis and surgical treatment of injuries to the, 707.
Dilatation of the cervix of the gravid uterus, Manual, 79; Treatment of traumatic œsophageal stricture by, 151; versus incision of the gravid uterus, 169; of the cervix uteri at full term, The bloodless method of, 755; rapid, Bloody methods of, 777.
Diseases of the nervous system resulting from accident and injury, rev., 463.
DITTRICK, HOWARD, Pulmonary complications following abdominal operations, 51.
DIXON, ARCH, The truth about so-called maternal impressions, 424.
DOLLEY, D. H., Clinical and experimental observations on surgical hemorrhage, 62.
Drainage, abdominal, The principles and mechanics of, discussion, 563; aspiration, in empyema and other surgical conditions, History of our knowledge of, 296.
DÜHRSSEN, PROF. DR., The contest with cancer of the uterus, 376; Vaginal Cæsarean section, 74.
Dwarfs, considered from an obstetrical point of view, abs., 188.
Dyspepsias, Reflex, in abdominal and pelvic disease, and their surgical treatment, 707.
Dystocia, due to uterine myomata, abs., 185; from congenital cystic kidney of the fœtus, with report of a case, 628.
EASTMAN, JOSEPH RILUS, The retention of drainage-catheters, 436.
Eclampsia, puerperal, The prophylactic treatment of, 24; Lumbar puncture in, abs., 458; recovering without delivery, Report of three cases of, 619; 695; Veratrum viride compared with lumbar puncture in the treatment of, abs., 187.
Ectopic gestation, Results of vaginal section and drainage in early cases of, 116; pregnancy and allied conditions, A clinical experience of, abs., 349; gestation, Results of vaginal section and drainage in early cases of, discussion, 172.
Edinburgh Stereoscopic Atlas of Anatomy, rev., 190.
Elephantiasis, enormous, of both legs surgically treated, A case of, 370.
ELIOT, ELSWORTH, Acute intussusception in young children, 225.
ELLIS, A. G., Lipoma of the uterus, 658.
Embolism and thrombosis, following abdominal operations, 110; Post-operative, 146; 164.
Empyema and other surgical conditions, History of our knowledge of aspiration drainage in, 296.
Enteroptosis, 130; 162.
Enterostomy, immediate, Notes on the technique of, 677.
Exophthalmic goiter, The pathological anatomy of, 476.
Exophthalmus, Pulsating, 193.
Extrauterine pregnancy near full term, 570.
Eye, Affections of the, in relation to pelvic disorders, 492.
Fæcal drowning, cancer of the colon, with special reference to its diagnosis, types of operation, and method of avoiding, 309.
Fæces and urine in suspected cases of disease of the pancreas, The technique of the examination of the, 440.
Femoral hernia, The radical cure of, with a report of one hundred and fifteen cases, 340.
Fibromyomata, uterine, Malignant complications and degenerations of, discussion, 566.
FINDLEY, PALMER, Primary malignant tumors of the infant uterus, 501.
FISHER, JOHN M., The relation of the general surgeon to the practice of gynecology, 645.
Fistula the result of a foreign body in the abdomen after laparatomy, 575.

Fistulæ, vesicovaginal, A new and improved method of closing, 124; large vesical, The technique of the repair of the, 107; vesicovaginal, The treatment of, 178; large vesicovaginal, Progressive treatment of, 177.
Fœtal monstrosity, 571.
Fœtus amorphous anideus, A specimen of, 490.
FORD, WILLIS E., Results of vaginal section and drainage in early cases of ectopic gestation, 116.
FOULKROD, COLLIN, Report of three cases of eclampsia recovering without delivery, 619.
Fracture of the carpal scaphoid, 21; The open treatment of, 258; Discussion, 338; of the cranium, abs., 453.
Gall-bladder and bile-ducts, Surgery of the, 177; and bile-passages, A review of fifteen hundred operations upon the, with especial reference to the mortality, 341.
Gall-stones, Intestinal obstruction due to, 708.
Gastro-intestinal ulcer, discussion, 559.
General surgery, rev., 191.
GIBBON, JOHN H., The treatment of tuberculous glands of the neck, 611.
GILLMORE, ROBERT, Insidious affections of the kidney in the young, with direct bearing on the prenatal origin, 621.
Goiter, exophthalmic, The pathological anatomy of, 476; Röntgen ray treatment of, abs., 837; Third thousand excisions of, abs., 838; tissue, Transplantation of, into spleen, abs., 838.
GORDON, SETH C., A review of the surgery of the female pelvic organs, 119.
Gynecological cases, Ureteral symptoms in, 22; procedures, The uses and abuses of certain of the more simple, abs., 184.
Gynecology, against overdone and misapplied surgery; or, Is gynecology dead? 162; Conservative, and electrotherapeutics, rev., 464; The use of oxygen in, abs., 586; The relation of the general surgeon to the practice of, 645.
HARRIS, PHILANDER A., Manual dilatation of the cervix of the gravid uterus, 79.
Heart disease as a complication of labor and pregnancy, abs., 187; Massage of the, in apparent death from anæsthetics, 565.
Heath's Manual of Minor Surgery and Bandaging, rev., 191.
Hebotomy, 42.
HECHT, D'ORSAY, Diseases of the nervous system resulting from accident and injury, rev., 463.
Hemorrhage, accidental, Some points in the diagnosis and treatment of, 708; cerebral, of childhood, Early operations for, 343; Surgical, clinical, and experimental observations of, 62; Traumatic, into the left lateral lobe of the cerebellum, treated by operation, recovery, A case of, 223.
Hermaphroditism, A rare case of, 484.
Hernia, A new method of utilization of the sac in the radical cure of, 328; Femoral, the radical cure of, with a report of one hundred and fifteen cases, 340; of the uterine adnexa, with a personal experience of seven cases, abs., 461; strangulated, and intestinal obstruction, The management of bowel of doubtful vitality in operations for the relief of, 709.
HERTZLER, ARTHUR E., Shortening the round ligaments, correspondence, 592.
HILL, W. C., Report of a case of multiple giant-celled sarcoma, 57.
Hip, Treatment of congenital dislocation of the, by incision, 247.
HOFF, JOHN VAN RENSSELAER, Medico-military notes in Manchuria, 106.
